

Rest better, choose your ideal pillow

We understand how important it is to wake up feeling refreshed and ready to face the day. That's why we have carefully selected five types of pillows designed to cater to every comfort need and ensure a perfect night's sleep.

Here are our solutions:

FIBER PILLOWS

1

Élite

This pillow is filled with virgin Ergotex fiber, providing balanced medium-to-high support, ideal for those who like to feel the pillow while they sleep.

2

Brillantina

The pillow features a Helicoitex fiber filling, providing medium-soft firmness. Moreover, the multi-layer rolled wadding fabric gives the pillow a voluminous and appealing look.

3

Yulia

This model is constructed with a multi-layer Fibertex fiber structure. Featuring a medium height and firmness level, its filling ensures excellent breathability, making it ideal for a customized sleep experience.

4

Nova

With a medium-low firmness and height, the Nova pillow is designed to maintain a natural posture during rest, thanks to its multi-layer virgin Fibertex fiber filling and helical structure. Soft to the touch and cool on the skin.

MEMORY FOAM PILLOWS

5

Form

The Form pillow is a 'breathable' pillow, featuring a system of three ventilation channels that ensure excellent air circulation. It is part of the low firmness range of pillows.

To receive your chosen pillow, simply contact the reception. We will ensure it is available on your arrival.
